Dear FCC rep,I absolutly love satellite radio and truely benefit from listening to all their programs expecially the traffic and weather channels. Satellite radio provides variety and quality that we cannot get from normal AM and FM stations up here in Alaska. Please protect our right to have all the channels avalible. I pay for these services and it should not be up to the National Ass. of Broadcasters to dictate what I should or should not be permitted to hear. Thanks for your help.

Respectfully Submitted,

Michael G. Schwarte
